UX & RESEARCH

TARGET GROUP

/ Refugees

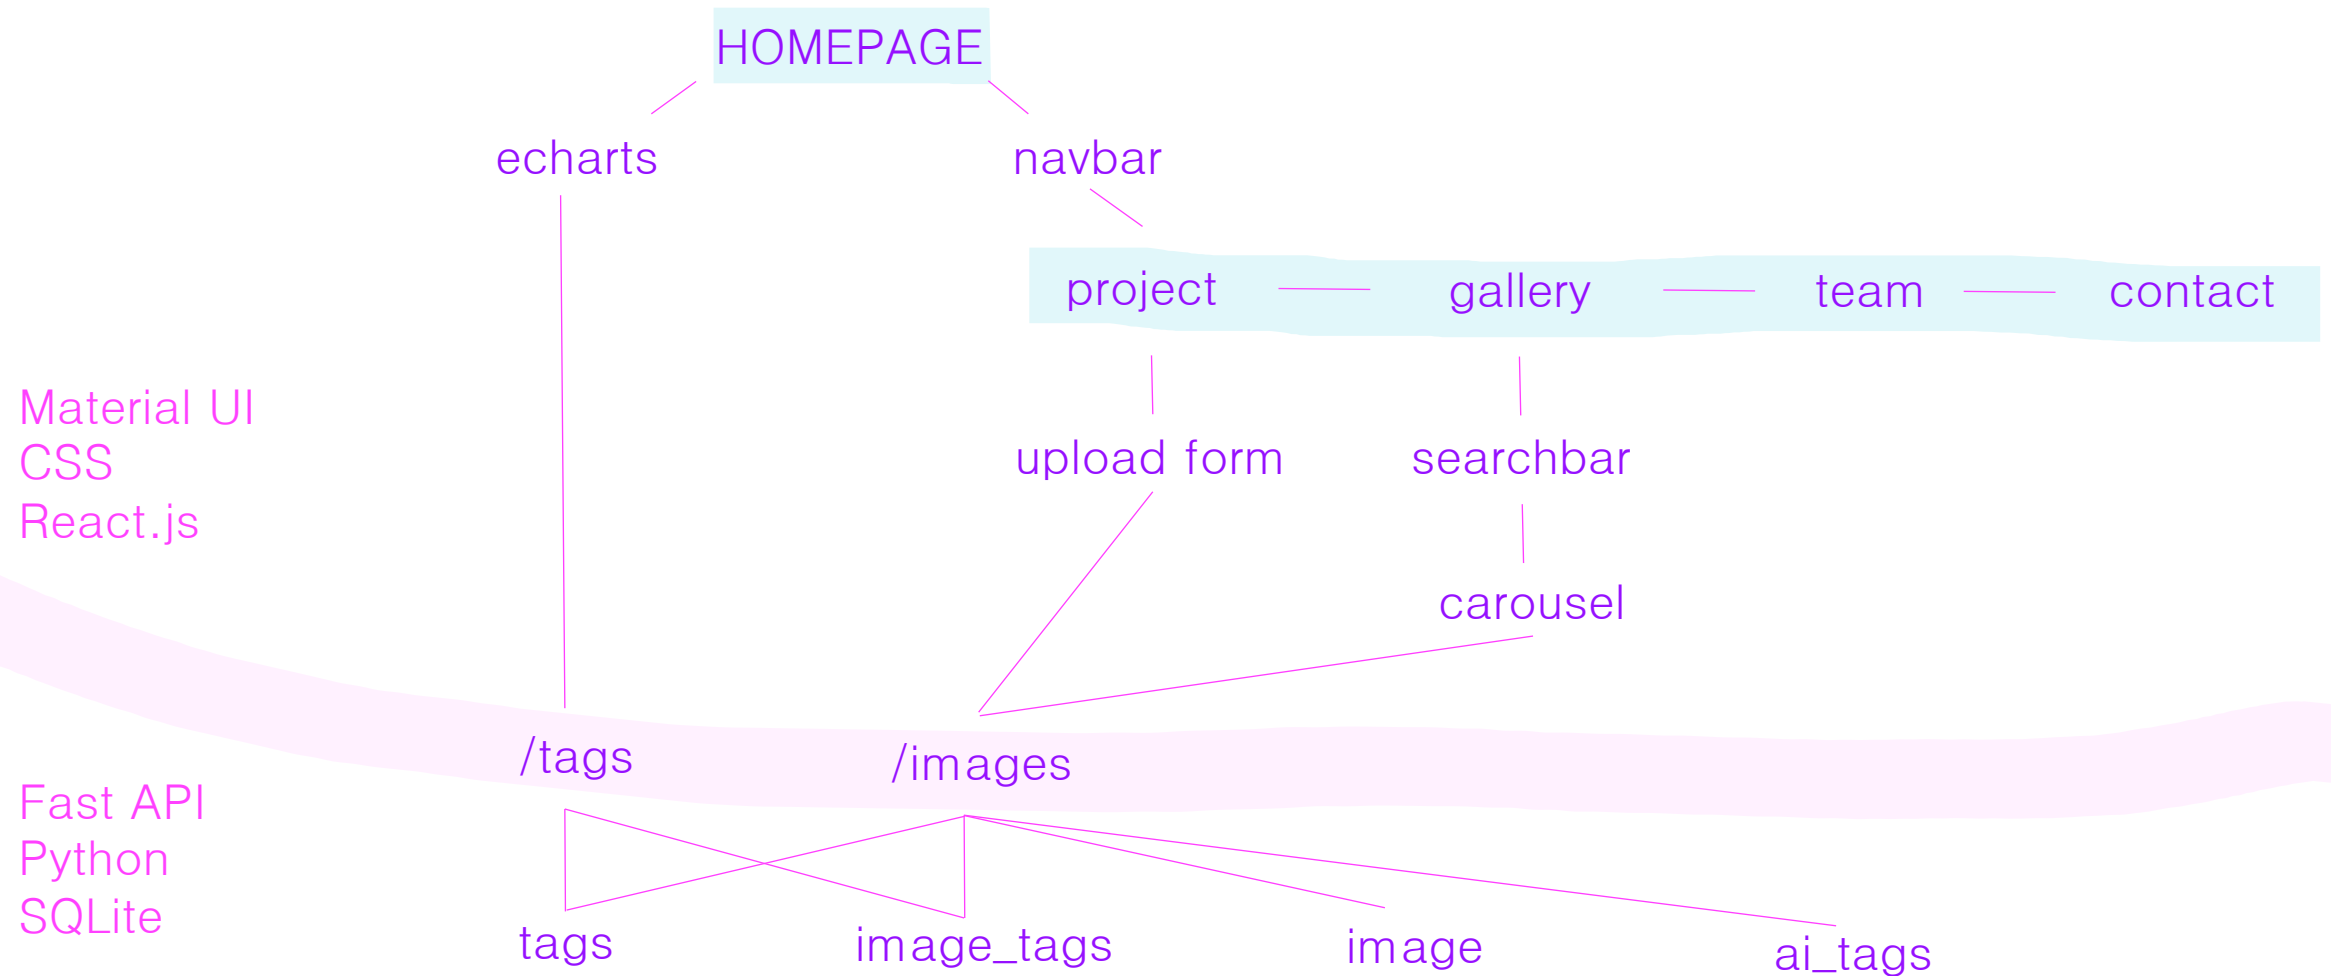

CHALLENGES

- / Deliver wireframes and features to the rest of the team at the very first stage without the User Research
- / Explanation of the project
- / Motivate users to upload images

FUTURE

- / Language: pop-up explanations over the key terms
- / UX Value loop: perceive value, proof, trust, join and share

TECH STACK

KEY LEARNINGS

„huge learning journey from studying to actual code“

– Tony, Data Science

„http requests and connecting backend with frontend“

– Michelle, Data Science

„how important is to do user research before designing a prototype“
